**Shares on Issue:**  
 453,318,328 (LSR)

**Options on Issue:**  
 45,333,702 (listed)  
 41,050,127 (unlisted)

ASX: LSR

### PROJECTS

- Peak Hill – Doolgunna:**
- Camel Hills – gold**
- Neds Creek – gold**
- Marymia – gold**
- West Pinyrinny – gold**

## Completion of Drilling at Contessa - Brumby

West Australian gold explorer Lodestar Minerals Limited (ASX: LSR; “Lodestar” or “the Company”) advises that the planned aircore drilling program has been completed at its 100%-owned Ned’s Creek project located 170km north of Meekatharra, Western Australia (Figure 1).

Figure 1 Map showing Brumby – Contessa gold prospects within the Ned’s Creek Project

In total 88 aircore holes were completed to a maximum depth of 122m. The drilling tested a number of significant gold anomalies located over a distance of 5km along the southern margin of the Contessa composite intrusion in areas of limited previous drilling. The aim of this program was to test these anomalies and the geological sequence in greater detail and identify the bedrock source.

Samples are being dispatched to the laboratory and assay results are expected to be available by early July.
