Marymia – gold
Imbin – gold and base metals

PLACEMENT TO FUND RC DRILLING AT BIG SKY

Lodestar Minerals Limited (ASX: LSR, Lodestar or the Company) advises that it has today placed 10 million shares at a price of 1 cent per share to raise \$100,000 in working capital (the Placement).

The Placement was completed in order to secure a contractor to complete an immediate follow-up RC drill program at the Big Sky prospect within the Company's wholly-owned Camel Hills Project before the end of the current field season.

High grade trenching results of up to 5 metres at 12.6 grams per tonne gold were recently returned from Big Sky (see ASX announcement dated 7 September 2015) and quotes from drilling contractors have now been compiled. The first drill testing of this area will be completed as soon as a contract is signed and a rig is available.

For and on behalf of the Board.

David McArthur
Director
